OFFICE OF SECURITY BULLETIN (U)

28 December 1979

**OS REGISTRY**  
**\*FILE** *Reports 10*1. Director of Security Comments

The Director of Security commented that recent events have created significant additional demands on the Office, both in the personnel security area as well as physical security activities. Requests for personnel security clearances will continue at a high level and there is increasing concern for the total applicant processing time, of which security processing is a significant part. In order to accommodate this heavy influx of requests as well as reduce processing time, increased efficiency on everyone's part, both at headquarters and in the field, will be required. Similarly, in the physical security area, numerous activities are under way to assess our security posture, both domestically and overseas to insure the procedures and equipment are effective and timely. He asked that each employee look for new and better ways to accomplish these tasks more efficiently and productively. (U)

2. T.O. Increase - FY81

Mr. Gambino announced that a recent decision by the DDCI has authorized 14 additional positions for the Office of Security effective FY81. The allocation of these positions to Security reflect the continued emphasis on increased security protection both in the personnel and physical security areas. (C)
